Date: \_\_\_\_\_ Place: \_\_\_\_\_ Signature: \_\_\_\_\_

**Placement Code of Conduct**

- Campus placement is a facility provided for the final year students. Registration for placements from the college is compulsory.
- Students having backlog of more than 4 subjects are not permitted to register for placement. Such students are advised to clear the backlogs and then register after the November end semester examinations.
- Students who have written their backlogs and are awaiting results can also register.
- Students placed through the college placement cell need to pay a sum of Rs 8000 to the college once they have an offer in hand. This would be a one-time payment, irrespective of the number of offers a candidate receives and the compensation they offer.
- It is the responsibility of the student to check announcements / notices / updated information / shortlisted names etc. in the notice boards of Placement Office.
- Attendance for all training programs conducted by the central placement cell is mandatory and no deviations will be entertained.
- Prior permission from the central placement cell is required for not participating in the drives if he/she is eligible.
- The placement cell strives to offer three jobs to every student depending on the companies that visit the campus/off campus. If the first job offer is in Software Companies then they can sit for a Second job in Core Companies and Third job is defined as a dream job & is open to all the students. Students once placed in any Core Company, he or she is not allowed to appear for another core company. For the Dream job option, students already placed in software as well as in core companies, are allowed to appear.
